Experience

Erasmus BIP / AI City Marketing

MARCH 2025

- Help the tourism boards of Antwerp, Ghent, and Ostend to attract young visitors through innovative Instagram storytelling.
- Identify and craft compelling stories about each city.
- Deliver polished creative products that meet professional standards.
- Present final works to an expert jury and reflect on the experience in a follow-up session.

TAMK- MepoNet / Social Media Website

ONGOING

- Designed and developed a social media platform for students and teachers at Tamk Mediapolis to foster collaboration on projects and events.
- Implemented user features such as posting projects, hosting events, and collaborating on project listings.
- Enabled users to filter content by study path (Interactive Media, Music Production, Fine Arts, Finnish Media) for a personalized experience.
- Developed the website using WordPress, PHP, JavaScript, and jQuery.

Yle- Pienet Koneet / Title Animation

MAY 2022

- Created the title video for Yle's new children's show, staying true to its playful and hands-on spirit.
- Utilized stop-motion animation techniques to bring miniature machines to life, ensuring a tactile and engaging sequence.
- Recorded frame-by-frame in Dragonframe for precise motion control. Enhanced and polished the final sequence in After Effects, maintaining a handcrafted aesthetic.
